CONLEY ON BAPTIST UNION

First Church's Pastor Considers it Great
Triumph Over Sectionalism.

FIRST OF KIND SINCE THE CIVIL WAR

Dr. J. W. Conley, pastor of the First Baptist church, has returned from St. Louis, where he took an active part in the meeting of the Baptists of the north and south, which resulted in the union of the two churches by the organization of a permanent body known as the general convention of the Baptists of North America.

From his pulpit at the First Baptist this morning he will deliver the same address which he gave before the convention at St. Louis on "The Christian Conquest of the West."

Dr. Conley has much to say of the nature and the significance of the union of the northern and southern churches. He says it does not mean that the newly formed organization will have any legislative power over the individual churches, for no Baptist convention has such power, being different in this respect from the conventions and councils of the Methodist and Presbyterian churches. It does mean that the missionary work of the church, both home and foreign, will be greatly facilitated and will be carried forward along the same lines both north and south, in Canada and Mexico as well. It means that all the Baptist churches of America will be as nearly alike as it is possible for them to be, because they will all be subject to the influence of the same advisory body, which is the general convention. The missionary societies of the north and south will continue their separate existence, as heretofore, not because they are divided any longer by the question of slavery, but because considerations of utility decree that they must remain so.

Great Thing for Country.
"The union is of great significance to the country at large," said Dr. Conley. "It is the result of the first movement of the kind which has been made since the civil war."

Foreign missionary work was organized by the church in 1814 and home missionary work in 1816. In 1846 the question of slavery came up and divided the church. Since then the two branches have worked entirely separately, although both churches have sent fraternal delegates to the conventions of the other.

The new convention will meet every three years, the first session to be held in 1938. Dr. Conley is a member of the executive committee.

A world's Baptist congress is to be held in London July 11, and hundreds of the American church are preparing to attend. Dr. Conley is planning to be present and will leave this city June 25 for Montreal, from whence he will sail June 30. He will be accompanied by Rev. and Mrs. C. W. Brimstad of this city and Rev. G. W. Conley of Blair.

Bank Clerk Returns.
GENOA, Neb., May 20.—(Special.)—Harry Pratt, the bank clerk who disappeared from here Wednesday night and for whom the whole country was searching all day Thursday, returned Thursday night at about 11 o'clock. He says that after going to his room Wednesday night it occurred to him that he desired to see the cashier of the bank and that he started out to find him but found himself lying in a swamp about three miles southwest of town. He was wet, disheveled and nearly exhausted from exposure and is now under the care of a physician.

A FRIEND'S ADVICE
Will Often Help You Greatly.
Read What an Omaha Citizen Says.

You may hesitate to listen to the advice of strangers, but the testimony of friends or residents of Omaha is worth your most careful attention. It is an easy matter to investigate such proof as this. Then the evidence must be conclusive. Read the following:

Mr. Frank McFarland, stockholder, of 3303 Jones street, says: "Too frequent action of the kidney secretions, particularly at night, at first merely noticeable, but always on the increase, became at last very annoying. I had no backache like so many people who suffer from kidney complaint have, but without that extra annoyance I spent a mint of money trying to check my trouble, but I was unsuccessful until I procured Doan's Kidney Pills at Kuhn & Co.'s drug store, corner 15th and Douglas streets. After the treatment I could go to bed every night and sleep like a child until morning. To say I endorse Doan's Kidney Pills is a mild way of expressing my opinion."

Sold by all dealers. Price 50 cents per box. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitutes.

LEAVITT MAY COMPROMISE

Remember that Tangle Over Irrigation May Be Straightened Out.

VALUATION OF THE MISSOURI PACIFIC
Company Satisfied with Last Year's Assessment on All Its Property Except the Omaha Belt Line.

(From a Staff Correspondent.)

LINCOLN, Neb., May 20.—(Special.)—A story emanating from Scott's Bluff county is circulating in Lincoln irrigation circles to the effect that a compromise will be effected between the United States government and H. G. Leavitt whereby the latter will receive water for his lands in the North Platte valley in return for a relinquishment of his claims in the Union canal project, which conflicts with the interstate canal, and the transfer to the government of the Farmers' canal project, twenty miles of which have been completed. No confirmation of the story can be had in Lincoln, but it is pointed out that such a solution of the problem would leave the government free to carry out the enterprise without hindrance, while should Leavitt persist and carry his litigation to the supreme court of the United States and ultimately win, it would place the entire Platte river scheme in jeopardy, since the officials of the Interior department declared at a recent hearing before the state board of irrigation that the loss of the 20,000 acres under the interstate canal would make the acreage cost for the balance of the land prohibitive.

A precedent for such a deal is found in the actions of the Interior department in taking over the Whelan Platte canal in Wyoming to form a part of the interstate project. The owner, Lingie, was given water rights in return. Leavitt at the time of the hearing before the state board, professed to believe that President Roosevelt would take a hand by calling off the snipers on the ground that they were interfering with private enterprise. He has been at Washington in conference with the president, and it is believed that if a compromise is reached it may have been at the initiative of the Interior department to remove the threat of litigation. The bids for the interstate project were opened at Denver May 15.

Highlander Talks Informally.
Tax Commissioner Highlander of the Missouri Pacific today addressed the state board of equalization informally. He indicated that he felt satisfied with the assessment made last year, when the main line mileage was assessed at \$5.90 a mile. He indicated that in view of the decisions of the United States supreme court the market value of the stocks and bonds of a railway is the only proper test of value, and he thought that the net earnings are of service only as a check on the assessment reached on the stock and bond basis.

His only grievance was the assessment of the Omaha Belt line, which he regarded as the main line. He said that it was taxed more than when assessed locally. This belt line is sixteen miles long. Of this mileage ten miles was incorporated with the main line last year and six with the Western Water branch last year at \$5.90.

The members of the board are dissatisfied to make any reduction, believing that as a terminal property the assessment was justified. The assessment on the main line and the branches last year was as follows:

Main line	Miles	Assessment
Omaha to Lincoln	100.00	\$5.90
Lincoln to Omaha	100.00	\$5.90
Springfield and Papillion	7.50	\$5.90
Total	207.50	\$1,234.25

Modern Station for Lincoln.

Announcement was made today that the Burlington railway will reconstruct its local passenger station at an expense ranging from \$75,000 to \$100,000. The new station is to be located on the new line to be inaugurated in the near future, leading to General Superintendent Byram. The exterior of the old fashioned structure now in use is to be entirely remodeled and finished with pressed brick, while the interior is to be modernized and furnished in the fashion most approved for the service. The entire first story will be changed and to the north and south new wings will be erected for baggage, express and dining rooms. Another innovation will be train sheds to cover the passenger tracks. Several large waiting rooms will be provided for male and female passengers. The announcement today produces much satisfaction among the residents of Lincoln, who have been promised such improvements for the past ten years.

A story is current that the effect of the Union Pacific has made arrangements for joint use of the reconstructed station, but no confirmation is to be had from local officials. At the present time the latter road is using a small wooden structure for its freight cars, and it is expected that any more supplies of this kind will be ordered from Omaha.

General W. W. Blackmar Stops to Greet Governor.

Chief of the Grand Army of the Republic, stopped off in the city today to pay his respects to Governor Mickey. He was on his way to the state capital at Topeka, where he will attend an encampment, and he was accompanied by his adjutant general, J. E. Gilman. The party also included Mrs. Blackmar, Mrs. Gilman and Mrs. Brewer, a sister of Mrs. Blackmar. The party, escorted by Adjutant General Culliver and Brigadier General Daggett, took a drive over the city before departing. General Blackmar expressed his satisfaction with conditions in the Nebraska division of the Grand Army.

Prepares for New Examination Law.

Superintendent Joseph Sparks of Aurora and Superintendent Ward of Hastings today were appointed secretaries of the State Board of Examiners by State Superintendent McKinnis. The members of the board are Superintendent C. A. Fulmer of Beatrice, Superintendent W. M. Kern of Columbus and Miss Cora O'Connell of Fremont.

While the new law does not go into effect until October, there will be considerable work to be done in the meantime on the rules and regulations governing the examinations and getting ready for the operation of the new law. It is probable that extra clerical help will be needed, especially during the summer months, after May 1, 1936.

Severe Requisition.

Governor Mickey has issued a requisition on the governor of Virginia for Philip McIntyre, wanted in Dodge county on the charge of forging a \$100 draft. McIntyre is at present a convict in the Virginia state prison, but he will be released in a few days and the Dodge county authorities want to be on hand to arrest him as soon as he is free.

Result of Primaries.

The second primary resulted in the nomination of O. V. Eaton and N. C. Brock by large majorities, to the surprise of practical politicians, who had counted on Lawler and Thompson.

The police have arrested Oliver Huff on the charge of passing forged checks. The man presented two checks for \$1.25 and \$1.50, signed by D. E. Howard, at the First National bank. Huff, who is from Kansas, has been in the city since Easter.

Two Cattle Thieves Are Sentenced.

BROKEN BOW, Neb., May 20.—(Special Telegram.)—E. Chandler and James R. Rhodes, implicated in the big cattle steal

of last November, were both sentenced today to a term of years in the penitentiary. In passing sentences Judge Hester scored Chandler severely in putting the county to such an expense when the other two had turned state's evidence and pleaded guilty. On account of having first turned state's evidence, both were allowed to go free. Earl Cardman, the remaining member of the quartet, is still at large, having jumped his bonds.

The jury in the Stanley case, after being out all night, has returned a verdict of not guilty.

PAPILLIOS WANTS INTERURBAN

Farmers Who Want Four Prices for Land to Be Forced to Terms.

PAPILLIOS, Neb., May 20.—(Special.)—Friday evening a red hot session of the Commercial club was held in the interests of the Omaha, Lincoln & Beatrice electric line. A report of the committee empowered to negotiate with the farmers for rights-of-way was heard and action taken. The committee stated that it had done everything possible in its efforts to persuade the farmers to reduce the price asked for their land, but that they were unsuccessful. Many of the farmers holding their land at \$200 per acre. It was decided to endeavor to raise the money by subscription and then have the company institute condemnation proceedings against the land required for the right-of-way. A subscription paper was at once circulated among those present and \$1200 subscribed for stock in the company. E. C. Hard, secretary of the line, was in attendance and related the plans of his company in detail. It is the intention of the company to begin work on the construction of the line, according to his announcement, as soon as the right-of-way can be secured and contracts for furnishing the entire equipment of the road have already been let. Delivery to be made next fall. A time for the completion of the road could not be specified, as a great many variables will necessarily have to be overcome, but he said that the road would be running between Papillion and South Omaha by the last of this year. A. E. Langdon has been retained by the company as attorney and several condemnation suits will be filed next week. Papillion citizens are realizing that the road must be taken or the road will take another route and they are letting no grass grow under their feet, but are hustling and hustling hard.

Blackmar Speaks at Campfire

National Commander Attends State G. A. R. Encampment.

GRAND ISLAND, Neb., May 20.—(Special.)—The national commander of the Grand Army of the Republic and party arrived late last night from Denver. He reviewed Grand Army conditions in the nation, was greatly pleased with the prospects for a coming national encampment at Denver and referred to the incident of the recent episode at Gavilan, in which Governor Mickey was criticized by the governor of Arkansas as an innocent and casual reference to the civil war and the residents of the state. He said that the governor of Nebraska had made a mistake in criticizing the governor of Arkansas, who would suffer severely in a general comparison with the governor of Nebraska. The campfire was presided over by Judge Estelle of Omaha, who was assisted by the Department of Nebraska with a fine badge in recognition of his services as past department commander. A token of the kind being usually given at the next encampment after his office to his successor.

During General Blackmar's address he referred to President Roosevelt as one of the best friends of the old soldier who ever was in the White House and related the incident of the selection of members of the class of 1914 at Gavilan, at the recent inauguration. Adjutant General Gilman also addressed the campfire and both were enthusiastically received. The members of the Blackmar party were General and Mrs. Blackmar, Mr. and Mrs. Gilman and Mrs. Brewer, sister of Mrs. Blackmar.

In the closing meeting resolutions were read cordially thanking the people of Grand Island for their very cordial entertainment.

Packers Stop Meat Supply

Hotels and Restaurants Forced to Buy from Local Dealers.

BEATrice, Neb., May 20.—(Special.)—Proprietors of hotels and restaurants in this city who have had their supplies of meat shipped direct from Omaha for years received notification yesterday from the houses of that city that they could not ship them any more supplies of this kind. The new order came as a surprise to consumers of Omaha meats, and will result in the hotel and restaurant men here patronizing local meat markets provided they can purchase the meat at reasonable prices. In case they fail it is not likely that they will get their orders filled at Kansas City, which seems to be the only available place outside of Omaha.

The offices of the packing companies at South Omaha were closed when the above message came and no information could be obtained there. William Collins, manager of the Omaha branch of the Cudahy Packing company, said he had heard nothing of the order. He said that he would have some knowledge of it if it had been issued.

HILL LINE AFTER NEW ROUTE

Surveyors Apparently Plan to Cross Platte Near Fremont.

FREMONT, Neb., May 20.—(Special.)—A Great Northern surveying party of four men was put in an appearance yesterday at the East farm near Estlin about seven miles south of this city, established a camp there and are working in both directions. The coming of the party was somewhat of a surprise, for it seems to have been the accepted view that the Great Northern would not cross the Platte at this place, but keep to the north, crossing at Asland. The survey being made by these men leaves the Platte bottom near Tutan and about four miles follows along the bluff, indicating a crossing of the Platte a little east of south of this city. The surveyors say they will be in the vicinity for several days.

Alliance Ready for Stockmen.

ALLIANCE, Neb., May 20.—(Special Telegram.)—Extensive preparations are being made for the reception of delegates to the sixth annual meeting of the Nebraska Stock Growers' association, which will be held here June 1 and 2. Live stock commission men will be present from South Omaha, Denver and St. Joseph. Those from South Omaha will come in a special car and after attending the convention here will take a tourist train to the stock raising portions of the North Platte valley and Wyoming.

Governor Silent on Special Session.

GRAND ISLAND, Neb., May 20.—(Special.)—During his visit here yesterday Governor Mickey was asked as to the status of the movement for a special session of the legislature. The governor had nothing definite to say in the matter, but indicated rather than said that the subject had not been means dropped from the executive mind.

News of Nebraska.

BEATRICE—The Beatrice public schools will close May 26.

DAKOTA—At exercises held at the Methodist Episcopal church a class of nine was graduated in the high school.
